01 The answer first

the conclusion first; every page after this is the proof

- ◆ The marriage promise is firm and workable: the Kark saptam bhav (marriage house) is empty, but its lord Chandra is in Dhanu in H12 with Guru in its own rashi, showing a caring, educated partner who may be private or connected with a distant place.
- ◆ In the D9 navamsa (marriage maturity chart), Mesh lagna has Tula as the saptam bhav and its lord Shukra in Singh in H5, so marriage begins through attraction and personal choice and matures through warmth, loyalty and shared creativity.
- ◆ Mangal dosha applies only under the extended rule because Mangal is in Kumbh in H2, not from Chandra; Kaal-sarp is absent and sade-sati was not active at birth, so there is no severe marriage-blocking dosha in the chart.
- ◆ 28 Oct 2026 – 18 Jan 2027 is the strongest dasha window because the mahadasha of saptamesh Chandra, Shukra antardasha and Guru pratyantar operate together; 24 Apr 2027 – 19 Jul 2027 and 24 Mar 2029 – 27 May 2029 are the next useful windows.
- ◆ The pair's 24/36 guna, Gana 6/6 and Nadi 8/8 provide a sound foundation, but Bhakoot 0/7 and one-sided Mangal dosha make it necessary to clarify finances, family expectations and communication before marriage.

THE ONE CAUTION

Mangal is combust in Kumbh in H2 and the matching shows Bhakoot 0/7, so sharp speech, shared finances and both families' expectations must be handled with clear written agreements.

confidence medium · Confidence is medium. The birth time is given exactly as 04:12, and the D1 marriage promise is supported by Mesh lagna in D9, Tula saptam bhav and Shukra in Singh in H5; confidence remains medium because the D1 saptamesh Chandra is in H12, Guru is in H6 in D9, and the transit data is given by month.

AT A GLANCE

02 The saptam bhav — the house of marriage

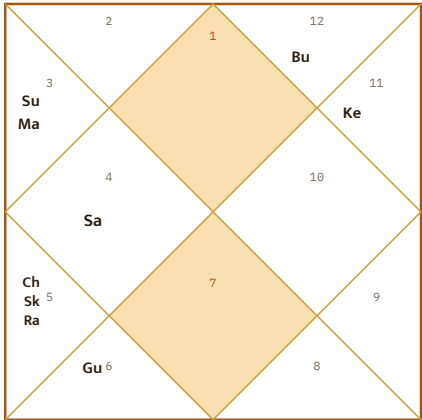

bhav 7 · 12 · 4 · 1

PLACEMENT	WHAT IT DOES HERE	WEIGHT
Chandra 16°02' Dhanu · H12 · neutral	With Chandra at 16°02' in Dhanu in H12 in a neutral condition, the partner may be emotionally perceptive, while privacy, distance, travel or sacrifice may enter the relationship.	strong
Guru 19°56' Dhanu · H12 · own sign	Guru at 19°56' in Dhanu in H12 in its own rashi strengthens the partner's education, ethics and protective nature beside saptamesh Chandra.	strong
Shukra 14°51' Mesh · H4 · digBala	Shukra at 14°51' in Mesh in H4 with digBala increases the ability to create a comfortable home and companionship after marriage.	strong
Kark · H7 · no occupants · 26 ashtakavarga bindus	The empty Kark saptam bhav does not deny marriage, and its 26 ashtakavarga bindus show moderate, workable partnership support.	moderate

The Kark saptam bhav is empty, but this does not deny marriage. Its lord Chandra is in Dhanu in H12 with Guru in its own rashi, giving a clear marriage promise with a private, sensitive and educated partner. The relationship may involve distance, travel, a different background or periods when emotional matters are processed away from public view.

Guru's presence protects the partnership through ethics, learning and a supportive nature. Shukra in Mesh in H4 with digBala (directional strength) strengthens the ability to build comfort, companionship and a settled home after marriage. The 26 ashtakavarga bindus (support points) in the saptam bhav show moderate but workable partnership support. The chart therefore promises marriage, but it asks you to create emotional openness and practical boundaries rather than assuming closeness will happen automatically.

04 What the navamsa says

bhav 1 · 7 · 5 · 6 · 4

PLACEMENT	WHAT IT DOES HERE	WEIGHT
D9 Mesh lagna · Tula H7	D9 Mesh lagna with Tula in H7 makes balance and fairness important, while Mesh gives a direct and independent response style.	strong
D9 Shukra Singh · H5 · saptamesh	D9 saptamesh Shukra in Singh in H5 allows romance, personal choice, loyalty and affectionate expression to nourish marriage.	strong
D9 Guru Kanya · H6	D9 Guru in Kanya in H6 shows that marriage must grow through daily responsibility and practical adjustment.	moderate
D9 Shani Kark · H4	D9 Shani in Kark in H4 can bring reserve or emotional duty into the home, requiring warmth and reassurance for balance.	moderate

The D9 navamsa shows how the marriage promise becomes lived experience. Mesh lagna places Tula in the saptam bhav, making fairness, balance and mutual respect essential. At the same time, Mesh gives a direct and independent response style, so disagreements should be addressed plainly rather than allowed to become silent distance.

The D9 saptamesh Shukra in Singh in H5 supports attraction, personal choice, loyalty and affectionate expression. Shared creativity and visible appreciation help the marriage remain warm. Guru in Kanya in H6 shows that marriage grows through daily responsibility, service and practical adjustment more than through ideals alone. Shani in Kark in H4 can bring reserve or emotional duty into the home. Regular reassurance and warmth will therefore be necessary to keep responsibility from becoming heaviness.

06 Dosha status

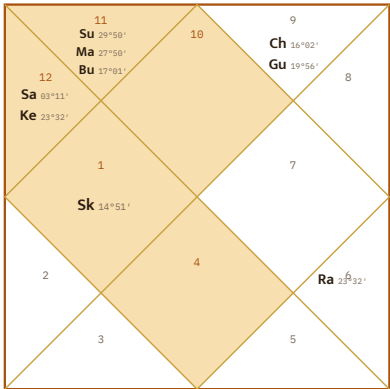

Mangal dosha: applies · Mangal in H2 from lagna (dosha house), H3 from Chandra

Kaal sarp: does not form

Sade sati at birth: not active

07 Mangal dosha and the other doshas — the truth

bhav 2 · 7 · 3 · 1 · 4

PLACEMENT	WHAT IT DOES HERE	WEIGHT
Mangal Kumbh · H2 from lagna · dosha present under extended tradition	Mangal in Kumbh in H2 from lagna under the extended tradition may bring sharp speech, impatience over family values and friction around joint money.	moderate
Mangal · H3 from Chandra · dosha false from Moon	Mangal in H3 from Chandra makes the dosha false from Chandra, reducing its emotional and marital impact.	moderate
Kaal-sarp · present false	With Kaal-sarp marked absent, there is no basis for predicting marriage obstruction or fear through that label.	strong
Sade-sati at birth · active false	With sade-sati at birth marked inactive, there is no basis for treating it as a marriage dosha.	strong

Mangal dosha applies to the native from lagna under the extended tradition because Mangal is in Kumbh in H2. It does not apply from Chandra, and no recorded cancellation is present. Its practical expression is not marriage denial; it is more likely to appear as impatience in speech, friction around family values and pressure over shared money. Compatibility and conflict style matter more here than fear-based remedies.

The partner's chart does not carry computed Mangal dosha because the Guru drishti cancellation is recorded. Kaal-sarp is absent, so there is no basis for predicting marriage obstruction through that label. Sade-sati was also not active at birth, and it should not be treated as a marriage dosha. The correct reading is clear: one extended-rule Mangal finding requires maturity, while the other feared doshas provide no marriage-blocking support.

PLACEMENT	WHAT IT DOES HERE	WEIGHT
Ashtakoot 24/36 · Gana 6/6 · Nadi 8/8	Ashtakoot 24/36 with Gana 6/6 and Nadi 8/8 gives strong basic nature and constitutional compatibility for long-term adjustment.	strong
Bhakoot 0/7 · Graha maitri 3/5	Bhakoot 0/7 requires work around household flow, money and family direction, while Graha maitri 3/5 provides partial practical support without fully cancelling zero Bhakoot.	strong
Bride Mangal dosha true · Groom Mangal dosha false	The bride has Mangal dosha and the groom does not, but the groom's chart records Guru drishti cancellation and the bride's finding comes from the extended lagna-only rule.	moderate
Partner Ketu Kark · H7; saptamesh Chandra Makar · H1 · combust	Partner Ketu in Kark in H7 with saptamesh Chandra in Makar in H1 and combust may make the partner guarded or emotionally detached without reassurance.	strong
Native Chandra Dhanu · H12; Partner Chandra Makar · H1	Native Chandra in Dhanu in H12 prefers private processing, while partner Chandra in Makar in H1 may respond through control and self-containment.	moderate

The milan gives 24/36 guna, with Gana 6/6, Nadi 8/8, Tara 3/3 and Vashya 2/2. This is a meaningful foundation: basic nature, constitutional compatibility, day-to-day wellbeing and mutual pull are strong. The score is not a reason to reject the relationship. Bhakoot 0/7 remains important, however, because it places focus on household flow, money and family direction. Graha maitri 3/5 offers practical support but does not fully cancel the zero Bhakoot result.

The Mangal findings are asymmetrical, with the bride marked true under the extended lagna-only rule and the groom marked false through Guru drishti cancellation. Both charts can hold feelings inward: the native Chandra in H12 seeks private processing, while the partner's combust Chandra in Makar in H1 can become guarded or self-contained. The relationship works when money, residence, family roles and emotional needs are discussed directly.

Ketu Kark · H7 from lagna	Ketu in Kark in H7 from Dec 2026 – May 2028 may reduce clarity, so explicit consent and planning are required instead of assumptions.	moderate

The strongest shaadi window is 28 Oct 2026 – 18 Jan 2027. During this period, the mahadasha of saptamesh Chandra, Shukra antardasha and Guru pratyantar operate together, combining the marriage lord, marriage-karaka and Guru in its own rashi. This is the most concentrated period for commitment. Guru's H7 transit also supports partnership, proposal and family approval across the surrounding activation period.

If the first window does not produce formalisation, 24 Apr 2027 – 19 Jul 2027 is the next practical period for engagement, documents and arrangements, supported by Chandra–Shukra–Budh and Guru's H7 transit from Feb 2027 – Jun 2027. If the matter is delayed further, 24 Mar 2029 – 27 May 2029 is a clean commitment window through Mangal–Rahu–Shukra. Ketu in H7 from Dec 2026 – May 2028 can reduce clarity, so explicit consent and planning are essential.

13 The conclusion

bhav 7 · 12 · 5 · 1 · 2

PLACEMENT	WHAT IT DOES HERE	WEIGHT
Chandra Dhanu · H12 with Guru in own sign	Chandra in Dhanu in H12 with Guru in its own rashi gives marriage protection, while emotional openness and practical boundaries remain necessary.	strong
D9 Shukra Singh · H5 · saptamesh	D9 saptamesh Shukra in Singh in H5 allows marriage to mature through affection, loyalty and chosen companionship.	strong
Ashtakoot 24/36 · Gana 6/6 · Nadi 8/8	Ashtakoot 24/36 with Gana 6/6 and Nadi 8/8 makes the overall fit acceptable to good and gives strong basic compatibility.	strong
Bhakoot 0/7 · Mangal combust Kumbh H2	Bhakoot 0/7 with combust Mangal in Kumbh in H2 can create avoidable tension unless family flow, money and speech are consciously managed.	strong

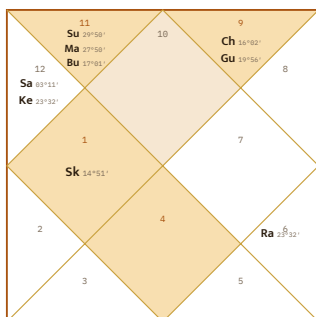

The chart does not deny marriage. Saptamesh Chandra in Dhanu in H12 with Guru in its own rashi gives a caring, educated and protective partner, though privacy, distance or a different background may shape the relationship. The D9 saptamesh Shukra in Singh in H5 adds attraction, loyalty, affection and chosen companionship. Marriage is likely to become stronger when both people consciously express feelings rather than relying on silence or assumption.

The best commitment window is 28 Oct 2026 – 18 Jan 2027, followed by 24 Apr 2027 – 19 Jul 2027 and, if delayed, 24 Mar 2029 – 27 May 2029. The 24/36 guna score, Gana 6/6 and Nadi 8/8 support the match. The principal caution is Bhakoot 0/7 together with Mangal in H2: speech, family expectations and shared finances must be handled through clear and practical agreements.

14 The five questions everyone asks

the questions people ask about this subject, each answered for your chart

1. When will my shaadi happen?

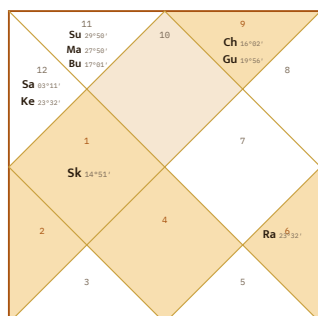

PLACEMENT	WHAT IT DOES HERE	WEIGHT
Chandra–Shukra–Guru	The combined Chandra–Shukra–Guru activation gives the most direct support for commitment.	strong
Guru Kark · H7	Guru's H7 transit from Feb 2027 – Jun 2027 supports proposals and family approval.	strong
Mangal–Rahu–Shukra	Mangal–Rahu–Shukra activates the marriage-karaka in a delayed case from 24 Mar 2029 – 27 May 2029.	moderate

Your strongest shaadi window is 28 Oct 2026 – 18 Jan 2027. The mahadasha of saptamesh Chandra, Shukra antardasha and Guru pratyantar operate together, making this the most concentrated period for commitment, engagement or marriage. This is the first period to treat seriously.

If formalisation does not happen then, 24 Apr 2027 – 19 Jul 2027 is the next practical window, especially for discussions, documents and family arrangements. If the matter is delayed further, 24 Mar 2029 – 27 May 2029 becomes the next strong commitment period through Mangal–Rahu–Shukra. Do not allow Ketu's period in H7 from Dec 2026 – May 2028 to create assumptions; obtain clear consent and confirm plans directly.

2. Love marriage or arranged — which way does the chart lean?

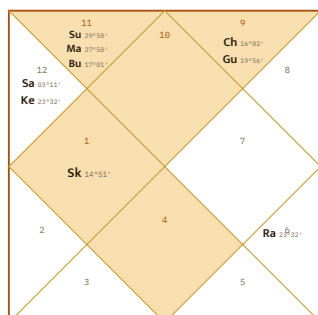

PLACEMENT	WHAT IT DOES HERE	WEIGHT
D9 Shukra Singh · H5 · saptamesh	D9 Shukra in Singh in H5 as saptamesh makes romance and personal choice important in forming the marriage.	strong
Shukra Mesh · H4 · digBala	Shukra in Mesh in H4 with digBala gives home and family consent a strong role in final settlement.	strong
Rahu Kanya · H9; Chandra Dhanu · H12	Rahu in Kanya in H9 with Chandra in Dhanu in H12 can bring a different background, distance or unconventional circumstances.	moderate

The chart leans toward love-cum-arranged marriage. D9 saptamesh Shukra in Singh in H5 shows that attraction, affection and personal choice can play an important role in forming the relationship. This is not a purely formal arrangement without emotional involvement.

At the same time, Shukra in Mesh in H4 with digBala gives the home, family settlement and consent of elders a strong role in the final outcome. Rahu in Kanya in H9 and saptamesh Chandra in Dhanu in H12 add the possibility of a different background, distance or circumstances outside ordinary family expectations. The relationship may therefore begin through personal connection but reach marriage through family participation and practical settlement.

3. What are the two of us like together — where do we fit, where will it take work?

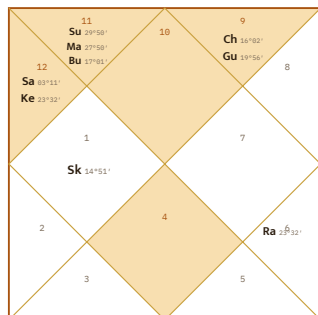

PLACEMENT	WHAT IT DOES HERE	WEIGHT
Gana 6/6 · Nadi 8/8 · Tara 3/3	Gana 6/6, Nadi 8/8 and Tara 3/3 give strong temperament, constitutional compatibility and daily wellbeing.	strong
Bhakoot 0/7 · Graha maitri 3/5	Bhakoot 0/7 with Graha maitri 3/5 may bring disagreement over household direction and finances, while moderate friendship supports adjustment.	strong
Native Chandra H12 · Partner Chandra H1 combust	The native Chandra in H12 and partner Chandra in H1 combust can suppress feelings, so silence must not be mistaken for agreement.	strong

Together, you have a strong foundation in temperament, constitutional compatibility, daily wellbeing and mutual pull: Gana is 6/6, Nadi is 8/8, Tara is 3/3 and Vashya is 2/2. These factors support resilience and the ability to adjust over time. The total of 24/36 is workable and does not by itself reject the relationship.

The main work lies in Bhakoot 0/7, Yoni 2/4 and the reserved emotional patterns in both charts. Household direction, money, family expectations and intimacy should be discussed openly. The native's Chandra in H12 may process privately, while the partner's combust Chandra in H1 may become guarded. Silence must not be treated as agreement. Direct conversation will convert the good basic compatibility into a stable partnership.

4. Mangal dosha and the other doshas in the two charts — what applies, and what offsets it?

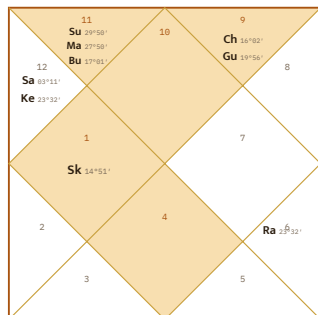

PLACEMENT	WHAT IT DOES HERE	WEIGHT
Native Mangal Kumbh · H2 from lagna · H3 from Moon	The native's Mangal in Kumbh in H2 from lagna and H3 from Chandra makes the finding lagna-only and extended, with speech and family friction as its main expression.	moderate
Partner Mangal Dhanu · H12 · Guru drishti cancellation	The partner's Mangal in Dhanu in H12 has Guru drishti cancellation, so computed Mangal dosha does not apply.	strong
Kaal-sarp false · sade-sati at birth false	Kaal-sarp and sade-sati at birth are both false, giving no support for marriage obstruction through either finding.	strong

In the native chart, Mangal dosha applies from lagna under the extended rule because Mangal is in Kumbh in H2. It does not apply from Chandra, and no recorded cancellation is present. Its practical effect is more likely to appear through sharp speech, family friction and impatience around shared money than through marriage denial.

In the partner chart, computed Mangal dosha is false because Guru drishti cancellation is recorded. Kaal-sarp is absent, and sade-sati was not active at birth. Therefore, the charts do not show a severe marriage-blocking dosha. The correct response is mature conflict management, especially in speech and finances, rather than fear or exaggerated remedial concern.

5. Is this rishta right for us, and when should we marry?

PLACEMENT	WHAT IT DOES HERE	WEIGHT
Ashtakoot 24/36 · Gana 6/6 · Nadi 8/8	Ashtakoot 24/36 with Gana 6/6 and Nadi 8/8 does not justify rejection and shows strong core compatibility.	strong
Bhakoot 0/7 · Varna 0/1	Bhakoot 0/7 with Varna 0/1 requires testing family hierarchy, finances and household direction before shaadi.	strong
Chandra-Shukra-Guru	Chandra-Shukra-Guru gives the most concentrated marital activation from 28 Oct 2026 – 18 Jan 2027.	strong

This rishta is workable and potentially right, not a match to reject on the basis of the score. The 24/36 guna, Gana 6/6 and Nadi 8/8 show strong core compatibility. The final decision should depend on real agreement about finances, residence, family expectations and emotional communication, because Bhakoot 0/7 needs practical handling.

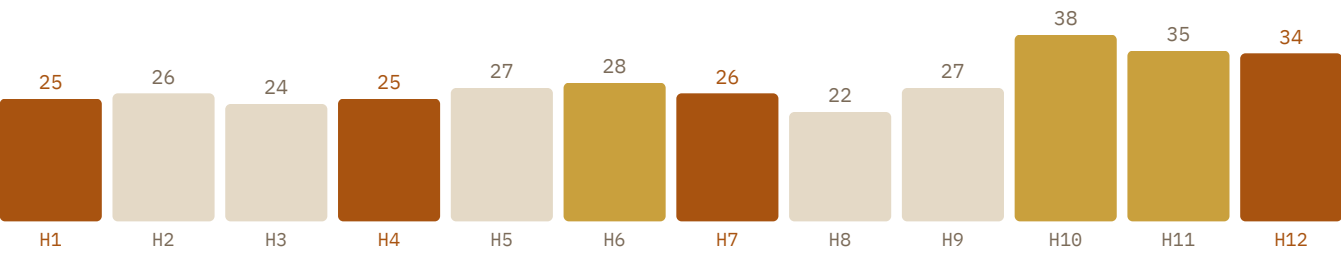

For marriage, 28 Oct 2026 – 18 Jan 2027 is the best period. It carries the most concentrated Chandra–Shukra–Guru activation. If that period passes without formalisation, 24 Apr 2027 – 19 Jul 2027 is the next practical choice for engagement or marriage arrangements. Proceed when both families and both partners have clearly agreed on the matters that Bhakoot brings into focus.
